

(Unclassified // FOUO)

CSWC Operational Period Summary

0600 May 27 2018 to 1800 May 27 2018

The Move Over Law exists to provide safety for maintenance & emergency vehicles who are stopped along the side of highways. The law requires drivers to move over a lane, if safe to do so, or slow down, when passing vehicles with flashing amber lights.

SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties

The California Department of Food and Agriculture (CDFA) has detected virulent Newcastle Disease (vND) in chickens in Los Angeles and San Bernardino Counties.

- CDFA and the U.S. Department of Agriculture (USDA) are scaling up their response to this incident, as more cases have been detected.
- CDFA has confirmed that there are no commercial premises currently involved.
- CDFA has confirmed there is no public health risk due to this virus.
- Cal OES Southern Region continues to assist CDFA in identifying a facility to expand operations, as the current Incident Command Post (ICP) is too small for the current number of responders and supplies. The three day weekend delayed obtaining a facility. County Real Estate Services provided a list of facilities nearby the CDFA district office as requested by CDFA. The Cal OES Southern Region, Agency Representative, along the Operation's Logistics Chief will be making appointments to inspect potential facilities on Tuesday, 05/29/18. An inquiry will also be made with California Department of General Services (DGS) on Tuesday, 05/29/18, to locate available facilities in a pre-determined mile radius from the CDFA district office.

Activations

- San Bernardino Operational Area (OA) Emergency Operations Center (EOC) is activated to Level 3 (lowest level) and will monitor the incident through the holiday weekend.

Deployment

- 1 Cal OES Southern Region Senior Emergency Services Coordinator (Sr. ESC) has deployed to the CDFA/USDA ICP as an Agency Representative (AREP), with an operational period of 0700-1900 hours.
- 1 Cal OES Logistics Section Chief has deployed to the CDFA/USDA ICP, with an operational period of 0700-1900 hours.

WEATHER OF CONCERN

Weather of Concern

- A rapid warm up is expected this holiday weekend with widespread 90s. The hottest weather of the year so far arrives on Memorial Day.
- A threat of afternoon/evening thunderstorms exists through Memorial Day in the higher elevations of the Sierra. Strong, gusty winds and locally heavy downpours are possible.

WEATHER SYNOPSIS BY REGION

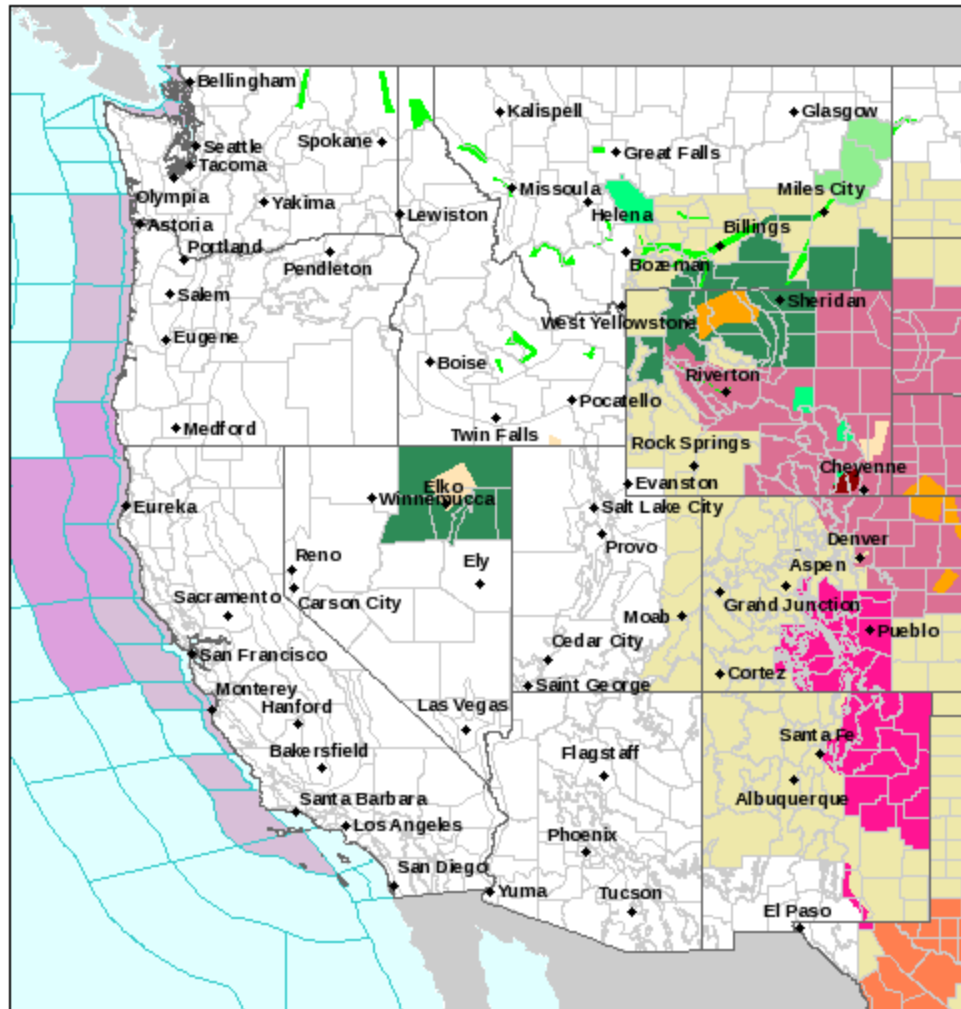

NORTHERN CALIFORNIA

Temperatures are forecast to be well above normal through early this week. Afternoon and evening thunderstorms are possible mainly over higher terrain starting on Tuesday. Another cool down is expected for middle to late next week. Dry and warmer weather will continue for the interior before an upper trough brings an increase in clouds and a threat for showers and isolated thunderstorms to eastern Trinity and northeast Mendocino counties Wednesday and Thursday. Coastal areas will remain seasonably cool with plenty of sunshine along with northwesterly afternoon breezes.

SOUTHERN CALIFORNIA

A weak ridge building in aloft will support a warming trend through Tuesday with less in the way of night to morning low clouds across coastal areas. A trough of low pressure pushing into the West Coast will support a return to more widespread night to morning low clouds with cooler conditions by Thursday. Overall, very nice weather will continue through upcoming week, with afternoon high temperatures fluctuating within several degrees of average. Along the coast the night and morning low clouds will continue, with various degrees of clearing each afternoon. The mountains and deserts will see ample sunshine.
